FULL STACK WED DEVELOPER

Bilingual Full Stack Developer with proficiency in React, Ruby on Rails, and JavaScript. Over four years of accounting experience, including two years in public accounting. Ability to collaborate with a team to deliver projects under strict deadlines. My understanding of business processes allows me to provide unique solutions to technical problems.

TECHNICAL SKILLS

JavaScript (ES6), React, Ruby, Ruby on Rails, SQL, HTML, CSS, Oracle

TECHNICAL PROJECTS

Karro - [GitHub](#) | [Demo](#)

Karro is a car expense budgeting and tracking application

- Utilized Bcrypt gem to store and encrypt user passwords.
- Employed the “accepts_nested_attributes_for” macro in order to send a POST request to two tables simultaneously.
- Created a search bar filter that allows a user to identify what other users pay for a similar expense.
- Allowed users to select vehicles created by other users with a custom route.
- Prevented users from accidentally deleting data via the window.confirm() method.

Digital Secrets - [GitHub](#) | [Demo](#)

Password protected secrets tracker, perfect for writing a diary or secret recipe

- Developed JavaScript/React front-end and Rails/Active Record/Postgres back-end application.
- Authenticated user at login by identifying encrypted passwords.
- Implemented full CRUD convention.

Dream Garage - [GitHub](#) | [Demo](#)

Dream Garage lets users build a virtual garage filled with their favorite dream cars

- Created user database with JSON document database.
- Utilized ‘react-router-dom’ library to create an efficient navigation bar.

EXPERIENCE

MyEyeDr.

Revenue Accountant

Vienna, VA

January 2019 – February 2021

- Implemented process improvements to eliminate large monthly variances between the GL and SQL database.
- Managed the integration of a newly acquired business entity's accounting department.
- Entered month-end journal entries into Oracle using data obtained from the SQL database.

RSM US LLP

Assurance Senior Associate

Washington D.C Metro Area

November 2016 – December 2018

- Managed teams of 1-3 associates in performing audits to achieve client reporting deadlines.
- Communicated audit findings and internal control deficiencies to the controller and CFO. Suggested improvements to the control environment to eliminate control deficiencies and implement solutions.
- Planned audits to ensure an efficient audit approach was conducted during fieldwork.
